

The Sales Rep's Projections Seemed A Little Far-Fetched.
But After Our First Month, We Discovered . . .

He Wasn't "Blowing Smoke" After All.

"Everytime we discussed monthly sales projections with **AUTEC's** sales rep, he kept quoting unbelievable numbers," said Steve Isaacs of Pioneer Petroleum & Fastop Stores. "We felt sure that the car wash would be a profitable investment, but whenever he would spout off these 'pie-in-the-sky' numbers, my partners and I would nod our heads toward him in agreement, then glance at each other and snicker under our breath. 'Yeah! Right!' we were thinking.

Well, the car wash installation was completed and our month-end came after only three weeks of operation. When we ran our monthly totals, we couldn't believe our eyes. After just three weeks, we were on track to exceed the salesman's projections. He wasn't 'blowing smoke' after all. The **AUTEC Soft Cloth** and Glass Building combination is true to its claims: The glass building attracts customers and the performance of the **AUTEC** keeps them coming back. We couldn't be happier."
